Paul Marciano : A Second Decade of Guess Images before purchasing it in order to gage whether or not it would be worth my time, and all praised A Second Decade of Guess Images:

0 of 0 people found the following review helpful. Guess?By Michael BalensieferI don't know the price I bought mine for. The image quality is great. I think Marciano directs all his shots or at least pics through them for the outtakes.1 of 1 people found the following review helpful. A Second Decade of Guess Images - FantasticBy MissThis book is so inspirational for anyone interested in Fashion and / or Photography - the most beautiful and timeless photographs and iconic images and the large format really brings them to life.8 of 8 people found the following review helpful. Mmmm, Yummy Photos, Yummy Clothes, Yummy PeopleBy Amanda BarnesI have been waiting anxiously for this book to come out since I got my copy of A Decade of Guess? Images 1981-1991 years ago, and as soon as I saw the second decade book was out I bought it.... not only are these books truly gorgeous, but they actually appreciate in value ...Anyway, as always you are left wanting more, which is a faint downer, but it also makes you want to get hold

of the catalogues Guess? put out during the year of each season's clothes - I've started looking around for them on sale 2nd hand because I want to see the photos that have been left out! Looking at the changes in style through the decade is of course fascinating, the different styles of each photographer and how everything ties in with the style of Guess? itself. There is very little writing in the book which leaves you open to fully concentrate and absorb each photograph, although I personally would have liked a little more detail on each of the shoots such as the names of all the people involved and the role they filled, maybe a few anecdotes, etc. I don't have a favourite photo or a favourite shoot. I think this book may actually be better in regards to that than the first book. In this book while there is a lot of variety, there is more of a 'feel' for what is wanted from each shoot. Buy it. You absolutely cannot regret it.

A gathering of controversial, breathtaking moments, "A Second Decade of Guess Images" captures images that reflect two decades of artistic exploration and set the stage for the new spirit of Guess? in the future. It showcases the best work of renowned photographers, Ellen Von Unwerth, Wayne Maser, Raphael Mazzucco, Daniela Federici, among others. The book features quotes and memorable Guess? images from 1991 to 2001, of top models such as Claudia Schiffer, Eva Herzigova, Anna Nicole Smith, Laetitia Casta, Drew Barrymore, and many more. 11-1/2"x15", Full color and black and white images

"The weighty new tome takes the reader through 263 pages of its most scintillating color and black-and-white ads." -- Sandra Dolbow, Brandweek October 7, 2002 "[The book] is larger than life, sexy, and, in its own unique way, a piece of history." -- K.C., American Photo, January, 2002
