I was recommended to buy this deck, back in the day by U.S. games's sales rep., but I foolishly held back. I have now purchased the deck/book and I greatly Rx it. It is serviceable deck but the original release of this deck is better. The deck has fantastic details, that a reader will enjoy as it brings out the intuitive side to your readings. The deck was originally released on better card stock. What can I say as a collector? 1 of

By Dastardly_Diego This is a great companion to the Scapini Tarot deck offering expanded descriptions and interpretations of each card. it isn't completely necessary, but it certainly makes things easier if you're new to tarot. 0 of 0 people found the following review helpful. Five Stars By cynthia Full of information love it

The best-selling Medieval Scapini Tarot Deck receives thoughtful commentary from Ronald Decker. The author guides the reader through the history of tarot while reflecting upon fifteenth century Italy and the wonderful - and sometimes humorous - artwork that comprises this lavish deck. Luigi Scapini created a deck that was rich in style and historical attributes, and here is a companion text worthy of partnership with his deck.
