Informative and loaded with high quality color photos, and a great price!6 of 6 people found the following review helpful. Great book for beginnersBy marybeth yemolaI am a newbie when it comes to understanding art. Contemporary art has become a favorite of mine and I wanted a good 'overall' book. This one delivers. It's 800+ pages covers topics such as contemporary art periods, info on hundreds of painters, sculptors and photographers and a plethora of artwork photos. A great book for those who, like me, who want a good starting place on the topic. I highly recommend this one!!0 of 0 people found the following review helpful. a great bookBy Kaya FisherIts a really nice book, its great for the library or 20th century art class. The images are stunning and its not to difficult to read.

The century that changed art forever: The quintessential roundup of art from 1900-2000
