Kris Waldherr : Ask the Queens: Advice Card Deck before purchasing it in order to gauge whether or not it would be worth my time, and all praised Ask the Queens: Advice Card Deck:

5 of 5 people found the following review helpful. Queenly AdviceBy CatI purchased this deck for my dear friend's birthday and she was delighted! While the deck is intended for use as an oracle, we couldn't resist pouring through them all right away! The cards are oversized and a nice weight, they feel great in your hands. The advice from each queen is thoughtful and often witty. There is also a brief bio of the queens featured on each card. You may find yourself (like I did) looking up more information because the tidbits the author shares are so intriguing you will want to learn more about these women rulers. The cards arrive in a lovely plum-colored storage box, it makes a great gift for tarot and oracle lovers, history fans and those interested in Women's History. 2 of 2 people found the following review helpful. Cute but nothing specialBy MMcDevittI bought this game for my daughter who loves anything royal. It includes interesting bios but the quotes are not anything great. Most of them are not true to the queens they represent and are very situation specific. (i.e. you can ask a question like, "will I be rich?" and the card you pick-up can say "biology can be a b***h". Not really helpful but very fun to read and they are very pretty to look at. 2 of 3 people found the following review helpful. ask the queens deckBy RainwalkerThe deck is nicely done, the pictures and various queens through time is very interesting, but sometimes it is difficult to gauge an answer from the cards and I have many oracle and tarot decks. Keep your questions simple and it may help answer your questions.

Inspired by Kris Waldherr's bestselling book *Doomed Queens*, Ask the Queens Advice Cards offers wisdom for women who want to get ahead without losing their heads. The deck features advice from 40 unfortunate female monarchs--from Cleopatra (death by asp) to Anne Boleyn (beheaded). To consult their Royal Majesties, simply choose a card for your special message. Royal advice is dispensed with scintillating wit and historical wisdom. And remember: those who don't learn from history are doomed to repeat it.

"The coolest, most awesome, most fan-freakin'-tastic thing ever.... an excellent gift for a wide range of people."--The Magical Buffet
Kris Waldherr's *Doomed Queens: Royal Women Who Met Bad Ends, From Cleopatra to Princess Di* (Broadway Books, \$16), is a brainy chick gift-closet staple, for teenage Tudors fans on up. In time for the holidays, Waldherr has just come out with two accompanying card decks. *Ask the Queens Advice Cards* (\$15) offers wisdom from 40 unfortunate female monarchs--from Cleopatra (death by asp) to Anne Boleyn (beheaded). Her *Doomed Queens Playing Cards* (\$12) feature a different female regent on each card except for the kings, who include Henry VIII and Alexander the Great."--Brokelyn.com
