**Piggyback : Assassin's Creed Revelations - The Complete Official Guide** before purchasing it in order to gage whether or not it would be worth my time, and all praised Assassin's Creed Revelations - The Complete Official Guide:

7 of 7 people found the following review helpful. Piggyback Ubisoft -- once again set the bar!By James GowanPiggyback Ubisoft -- once again set the bar! With the latest book of theirs, I'm amazed at the level of detail and beauty that they put into their Strat Guides. They are as beautiful as the games they represent and teach about. I highly recommend this product. This is the case with all of the books thus far in the AC series (especially starting with ACII) -- detailed and just a beauty of a book. If you have earlier AC games and wonder about whether or not to get the guides, I'd enthusiastically say YES! You may think you've done everything, but chances are: you didn't. Also, the book really goes into the Story so well. Just as important of what the book explains is what it protects. It tries very

hard to not be a spoiler. It gives just enough hints generally for you to find your own way without killing your fun of discovery. James Gowan PS. Not sure about the missing stuff from the last reviewer, but I got all that was promised to me. 0 of 0 people found the following review helpful. but I did not expect it to be in such great shape. This book is very detailed in explaining ... By Steven J. I knew that when I purchased this book that it was used, but I did not expect it to be in such great shape. This book is very detailed in explaining how the game works as well as having very good maps and explanations for each mission. I really enjoy using these books from time to time while playing the game, and I say this because it is hard to remember each and every little thing that needs to be done in order to complete the game. 0 of 0 people found the following review helpful. Because I enjoy the history. By Robert C. Martin I am a huge fan of the Assassins Creed games, even though I came to them very late. Because I enjoy the history, art work and the fantasy that is mixed into such real story lines I can't imagine just playing the game without a guide! My wish is that the producers will go back to the Ezio Auditore format which gave spoken descriptions of the history, locations and "villains" within the game, I would be lost without the guide to help explore each and every segment of the game and it is wonderful to the skill of the artists in mapping each conception and creation!

100% Complete ALL SECRETS INCLUDED Totally comprehensive all collectible items, hidden destinations, unlockable bonuses, Achievements and Trophies you won't miss a single reward.
