Easy to read and it is very detailed, it gives you the info to help complete missions with 100% sync. It comes with a code that will give you access to the online version of the game manual, courtesy of the Prima Games website.0 of 0 people found the following review helpful. A MUST HAVEBy doc2Just what I needed right now! Helps with my game performance.0 of 0 people found the following review helpful. Not for NOVICEBy Paul W.Admittedly I'm very much a novice at games on a PC. Was looking for a guide to get started with this one.Cover says for PC along with X-Box and Play Station. Not one clue for PC Keyboard / Mouse use.Bought an X-Box controller -- obviously better suited for gaming.Illustration of X-Box controller along with directions in book are so far useless.
