This is one of the best official coloring books from TVBy Kim MazyckThis is one of the best official coloring books from TV, movies, or video games I have got so far! It's obvious that they put some work duplicating from the original concept arts. The paper thickness is medium but great for color pencils. It's not single sided design so I don't recommend using markers or water color. But as an Assassin's Creed gamer, this is a must for you. And it will be a great gift for male friends!I'll post more colored pages once I finish them!0 of 0 people found the following review helpful.
