Lots of content, well put together By Brian Claire I recently started collecting video game art design books, and this one is one of the best I've bought so far. Great artwork, lots of inserts, and a great amount of content. The book was truly engaging with a variety of different forms of media including picture inserts, letter inserts, and many more. I highly recommend this book to anyone interested in video game art design. 0 of 0 people found the following review helpful. Loved it. So happy. By Brittainy I absolutely love this book. It offers great insight and more interesting way at learning and expanding your knowledge of the Assassin Creed world. It is a great book for the price, there are many need little sticky notes and letter that keep you looking for more. Not to mention that the graphics are amazing. 0 of 0 people found the following review helpful. Verry good in-universe book. By Lucas Verry good. Holds the hisotry of Robert Fraser, abstergo emplyee that went mad at the Animus, got into the templar order, learnt about Those Who Came Before, and more... The book has his notes and some extra

content. Every one who wants to read in-universe material should buy it.
