Joe Dwek : Backgammon for Profit before purchasing it in order to gauge whether or not it would be worth my time, and all praised Backgammon for Profit:

0 of 0 people found the following review helpful. Five StarsBy Frank P.Good book, was well written, and had some great tips.6 of 6 people found the following review helpful. An excellent book.By Chess ManiacThis is a book of backgammon problems but is quite unlike other similar books.In Dwek's book, you encounter a problem and read the solution. After you read the solution, you feel confident that his solution is correct. Nothing new there.However, THE VERY NEXT problem will be nearly identical to the last problem. And based on your new-found understanding, you think you should make the same move again, right? But actually, a subtle change in position leads to a completely different solution.By working through the problems in this book, you learn very well how a subtle difference leads to a different solution. These subtle differences vividly display the variety of factors that need to be considered when making your move. Joe Dwek explains the solutions well so there is no doubt afterwards that his solution is correct. Finally, the problems do cover all aspects of the game.3 of 3 people found the following review helpful. One of the best Problem BooksBy KopfHunterThere are probably better problem books for BG now but when this came out 30+ years ago it was great. If you are a new player and want to improve quickly this book will do it.
