From Puzzlewright : Backyard Sunday Crosswords (AARP) before purchasing it in order to gage whether or not it would be worth my time, and all praised Backyard Sunday Crosswords (AARP):

1 of 1 people found the following review helpful. ImpracticalBy Patrick LThis book was a disappointment. It is unlike other AARP editions that focus on real words and avoid using celebrity names and their relatives, idiotic long phrases and other useless entries. Thus, unless you know the names of movie people, authors and their works, the alma mater of celebrities, etc., you have to throw the book away. It is also poorly edited with wrong clues such as "Originally called" for "ne" instead of "Maiden name".1 of 1 people found the following review helpful. Great crossword puzzle bookBy R. A. GeorgeGreat crossword puzzle book! Just hard enough to make you think, which, after all, is the whole purpose isn't it? Full of double entendres (and even triple and quadruple!) that will have you pondering deeply and saying to yourself, "how did I miss that the first time around." Not too many " What was the nickname of the 2nd Duke of Earl" clues that would turn it into a how fast can you Google contest (never did understand why Crossword

Puzzle Dictionaries and Solvers even exist). Fun!0 of 0 people found the following review helpful. NOT Sunday Crosswords!By ADRPROThese are Sunday-sized but a Wednesday difficulty level. The author says right up top in the intro, " intelligence and wit of the New York Times crosswords but are a bit less difficult." That caveat needs to be in description, but it's not. I can write these answers as fast as I can read the clues. Truth in advertising? Fail!

For true puzzle fans, Sunday isn't Sunday without an extra-large, extra-stimulating crossword-and it's the ideal mental fitness routine, too. So, in conjunction with AARP, Stanley Newman, one of America's leading crossword constructors, has created a fabulous collection that gives solvers a Sunday challenge every day of the week. Each crossword features a theme-and until the solver discovers what it is, the clues to the longest answers in the grid will remain baffling. It's more puzzle fun than you can have in a month-or year-of Sundays.
