Now expanded and updated, this second edition of the original bestseller is an engaging interpretation of dance history from the Ancient Greeks and European royal courts to the rise of the American ballet and the explosion of modern dance. Short profiles, an extensive bibliography, a helpful index, and selections from primary sources are also included.

From School Library Journal
YA A one-volume dance source that does it all, this is a history of dance from prehistory to the 20th Century. An extensive bibliography suggests titles for further research, and the index makes research within the volume simple. The "Short Profiles" is a handy brief biographical source. Each chapter ends with one or more short selections from primary sources.
