We also veto the token pieces and just keep the card that you win rather than get a token. This speeds up the game a bit.1 of 1 people found the following review

helpful. Fun card game

Great game! My 6 and 9 year olds both love it. And as a parent it is one of the cuter and more exciting games to play with the kids. It doesn't take too long to play either, and some basic addition skills are reinforced without the kids noticing math is involved.

fantastic game!

This is a visually appealing, easy to follow game for young players. My four-twelve year olds can play by themselves, but sometimes the game looks so inviting that Mommy wants to join, too!

Wild Cards, Extra Turns, and other Special Cards mean more choices and more fun. When you complete an Ice Cream card, you earn points. Play your cards right, and you could win a Banana Split! Player with most points wins.
