Frederick Beigbeder : Barbie (Universe of Fashion) before purchasing it in order to gage whether or not it would be worth my time, and all praised Barbie (Universe of Fashion):

1 of 1 people found the following review helpful. fashion picture book By teebeeze Small, thin picture book of Barbie doll's fashions created by famous designers. Way too many coats and jackets though. The photos are good but some of the text is questionable (Ruth Handler was the mother of three children: Ken, Skipper and Barbara?) The pictures are not captioned; descriptions are at the end of the book which lets you enjoy the photos. Lots of great chairs too. Never would have paid full price for this but \$5.00 for a good used copy was worth it. 1 of 1 people found the following review helpful. Absolute Beauty !! By t49y Barbies Never Sold !
