Prima Games : Batman: Arkham Knight Signature Series Guide (Bradygames Signature Series Guide) before purchasing it in order to gage whether or not it would be worth my time, and all praised Batman: Arkham Knight Signature Series Guide (Bradygames Signature Series Guide):

Does NOT help much with Riddler challengesBy BLGets you through the campaign easily, which is not a problem for most people.... but it is really, really lacking at Riddler collectibles. It shows tiny thumbnail images of a building with no explanation, and you are left wondering how to actually solve the riddle. Some of them feature very unhelpful captions like "Solve this puzzle." Wow, thanks. This happened to me dozens of times, looking right at the hint in this book and not being able to "solve" the riddle. I'm not

an idiot, I achieved 100% of the Riddler challenges on every Arkham game. I'm thinking of one example in particular in which I needed to get a trophy behind a wall. Eventually I figured out that I needed to move a ramp, jump the car onto the opposite building, and shoot through a solid wall (does not show cracks in detective mode), and then pick it up. This book just shows a small grainy pic of a building. Not helpful at all. 1 of 1 people found the following review helpful. Not bad, but could be better. By DTJH. Honestly, with all the Youtube walk throughs available for free these days, the guides are becoming almost useless. I found the guide helpful in some ways, but trying to keep it all organized was a challenge. When faced with a particular challenge that I couldn't figure out, it was easier to look it up on Youtube than hunt it down in the book and go through some unclear pictures. Here is how I break down my star rating: 5 stars I love it! It is awesome and I have no complaints whatsoever. I highly recommend everyone to purchase this product! You won't be disappointed! 4 stars I like it, but it's not perfect. The issues with it though are very insignificant and have not swayed me from thinking it was a good buy. I would purchase again. 3 stars - It was okay. I like it well enough but I would probably not buy it again. That being said I am still happy I purchased it and will continue to use it. (I would also probably still recommend it with the disclaimer that it's decent but not amazing.) 2 stars Well... this product is not so great. I am sure you could find a better one without much trouble (and probably at a similar price as this one.) 1 star I don't like the product. It does not stand up to my expectations and I wish I had not purchased it and (if applicable) will be returning it. I would not recommend it to anyone and think it was a waste of money. 0 of 0 people found the following review helpful. Five Stars. By KH. This is a good book. I know it doesn't help much on the riddle challenges, but for me, it does help a little.
