Les Daniels, Geoff Spear, Alex Ross, Joe DeVito, Chip Kidd : Batman Masterpiece Edition: The Caped Crusader's Golden Age before purchasing it in order to gage whether or not it would be worth my time, and all praised Batman Masterpiece Edition: The Caped Crusader's Golden Age:

0 of 0 people found the following review helpful. It Was Indeed the Golden AgeBy Edward LeeThis book is a shortened book of the same title. Perhaps it was the author's way of having the consumer pay for the same book twice. In this instance, this book has additional material not printed in the longer version. Whatever the reason, this book has proved to be an invaluable tome to the Golden Age exploits of the Dark Detective. The book has extensive black and white and color reproductions of art drawn through the years by Bob Kane through Neal Adams. Additionally, the book provides extensive background material on the development of the character by Kane and Bill Finger through

producer Michael Uslan's production of BATMAN starring Michael Keaton. This book is invaluable as research material to all comic book lovers of the Golden Age of Batman/Bruce Wayne and Dick Grayson/Robin, the Boy Wonder. I wonder if Les Daniels also wrote companion shortened books of Superman, The Golden Age and Wonder Woman, the Golden Age. I would not hesitate to recommend this book to all collectors of Batman memorabilia. 0 of 0 people found the following review helpful. Five Stars By R.C. Great product! 6 of 6 people found the following review helpful. Very cool By Zack Davisson I love these Masterpiece Editions! As with the "Superman Masterpiece Edition," this carries an exact replica of Batman #1, an abbreviated version of Les Daniels's "Batman : The Complete History," and an astounding mego-style 9" Batman figure. It's nice to see a reprint of Batman #1, as reprints of his first appearance, Detective #27 are far more common. I had never seen a full version before. As I do not buy Les Daniel's "Complete History" series I am happy to have the book. It will be redundant to someone who collects both. It is basically the Golden Age section. While the book and the comic reprint are great extras, the figure is the real reason to buy this set. He is perfect in detail and simply one of the most beautiful Batman toys I have seen. He fits in perfectly with the DC Silver Age 9" figure line. It comes with a Batarang and a poseable cape. (Interesting side note: The figure is Batman from his first appearance in Detective #27, and not the costume from the included comic, Batman #1) I highly recommend this set, and I hope that they continue the series with a "Wonder Woman Masterpiece Edition," and, dare I hope, a "Captain Marvel Masterpiece Edition."

Following the success of the Superman Masterpiece Edition comes another nostalgic celebration of the equally popular Batman. Since 1939, this nocturnal super hero has been the tragically orphaned Bruce Wayne by day, and the moody but fearless guardian of Gotham City by night. Our classic boxed set captures the golden age of the Caped Crusader with an exclusive action figure of the early Batman; the first-ever facsimile reprint of the first Batman comic book; and a lavishly illustrated, full-color hardcover book by best-selling author Les Daniels detailing Batman's early years. This deluxe boxed set is thoroughly collectible, and a must-have for Batman fans across the world.

Loaded with more rare comic book art, interviews, working sketches and original character designs than you could fit in a phone book. Advertising Age's Creativity Truly the ultimate history of America's ultimate superhero. Publisher's Weekly About the Author Les Daniels is a renowned comic book expert. He's the author of DC Comics: Sixty Years of the World's Favorite Comic Book Heroes. He lives in Providence, Rhode Island.
