Instead, I get a book about magic that teaches you that the key to winning is to psyche out your opponent. The decklists are the only interesting part, but they quickly get boring. To all hopeful M:TG players, I say "Look elsewhere."6 of 6 people found the following review helpful. Not as good as I expected!By A CustomerConsidering the author of the book, I had highexpectations. I felt as though most of thebook concentrated on strategies and techniques that were based on common sense. Anyone with any experience with Magic will find this book very boring!
