**Victor Mikhalevski : Beating Minor Openings (Grandmaster Repertoire)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Beating Minor Openings (Grandmaster Repertoire):

2 of 4 people found the following review helpful. Great book! By Customer Great book! Includes all the minor openings, and for a grunfeld player this is a necessary book, and will cover all the lines besides e4 and d4.

offers a world-class repertoire for Black against every sensible first move apart from 1.d4 and 1.e4. GM Victor Mikhalevski advocates an ambitious approach for Black, with the aim of occupying the centre and fighting for an advantage, rather than mere equality, wherever possible.

About the Author is the reigning Israeli Chess Champion and is renowned as a leading theoretician.
