Beatles : Beatles Greatest Hits Vol. 2 For Guitar [Songbook] before purchasing it in order to gage whether or not it would be worth my time, and all praised Beatles Greatest Hits Vol. 2 For Guitar [Songbook]:

I won't bore you with the details, but I had this book many years ago and gave it away. I was thrilled to find this again, it brings back a lot of memories of practicing music after school.First off, most of the arrangements are not completely accurate (for example, missing verses or instrumental breaks) and many of them are not in the original key. There are difficult songs and easy ones. The book, however, is a great resource to encourage and inspire beginning guitarists who like Beatles music.There is also a Vol. 1 as well, and the arrangements in that one are pretty similar to the ones in this book.
