I've read several other major books on the Beatles, but this one has a lot of material that none of the others seem to have. It feels much more of an intimate portrait, more finely drawn, more telling details. I am thrilled to have this book. My husband and I are both die hard Beatles fans, being kids when the Beatles hit American shores. HIGHLY RECOMMENDED! 1 of 1 people found the following review helpful. A must-have for young (and old) Beatle fans. By Paskuniag Highly recommended. An in-depth look at how the Beatles climbed the British show biz ladder, all the way to the "toppermost of the poppermost," as described by John, then to America, the promised land, and onward to the entire globe. 1 of 1 people found the following review helpful.
