By james wheelock if you are a statistician maybe you like this book. the book is in many segment commenting on , Not the beatles work, but others. and some where in the note would be a mention of there was a beetle perhaps present, or he passed thru and said hi, or actually picked up an instrument. this is not for a beetle fan

PanesiI looked at this book for 20 minutes and still had no idea what it was about. I have every book about the Beatles but to me, this was a piece of garbage. This is the only book I've ever returned in my life-anywhere.6 of 6 people found the following review helpful. Surprisingly goodBy A CustomerI am a Beatles freak (I just attended the 1999 Beatlefest in Irvine, CA two days ago), but checked this book out of the library reluctantly, thinking it would mainly be boring trivia, and maybe 5 pages out of the whole book would be interesting. Books that categorize minutae are mainly good as RESEARCH books worth pulling off a shelf only when you need to look up a fact, rather than good READING experiences. But, boy, was I pleasantly suprised to find this to be a riveting piece of work. It includes fascinating facts you'd never learn anywhere else, plus, best of all, there are some wonderful stories about the Beatles in these pages. And they are well written. One of my big complaints about a lot of "historical" books is that the authors are often brilliant RESEARCHERS, but they are dull WRITERS. But Englehardt has that rare and blessed combination of being a great researcher and a first-rate writer. I kept reading the book, thinking it had to bog down somewhere, but it really kept my interest from the first page to the last.Having praised the book so highly, I do have to add that the music on the CD that comes with it is not very good. It's interesting for one listen to hear songs that individual Beatles were involved in. But you probably won't want to play it more after the first listen has satisfied your curiosity about it.But the book is suprisingly good, and should be read by anyone who considers him/herself a diehard Beatles fan.
