There are not many online sources that show what's "INSIDE" the book, but, trust me, this book is gorgeous. Most of the photographs are of young Hollywood and current IT people (Justin Timberlake, Leighton Meester, Emily Van Camp, Ashley Greene, etc.) that wanted to support the cause that Darren Tieste is passionate about - raise money for brain cancer research. Buy this book - it's more than reasonably priced for a big coffee table sized book, but more importantly, it supports a great cause.0 of 0 people found the following review helpful. Five StarsBy MarieAbsolutely beautiful photos. Money goes to a great cause.0 of 0 people found the following review helpful. FANTASTIC BOOKBy J RegulatorThis book is so amazing, I just bought

a second copy as a gift. What an amazing book and all proceeds go to brain cancer research! Each photo is STUNNING. I cant wait to see Darren Tieste's second book!

The Beauty Book for Brain Cancer is a collectable hard cover coffee table book that features over 140 celebrities that all came together to be photographed to support Brain Cancer.
