From Beckett Publications : Beckett Racing Collectibles and Die-Cast Price Guide (Beckett Racing Collectibles Price Guide) before purchasing it in order to gage whether or not it would be worth my time, and all praised Beckett Racing Collectibles and Die-Cast Price Guide (Beckett Racing Collectibles Price Guide):

1 of 1 people found the following review helpful. Good product for Racing CollectiblesBy Bryan S. BaumgartnerOnly

gave 4 stars because I was hoping it included a wide variety of "die-cast" pricing - focuses primarily on the Racing Collectibles and die-cast only. 4 of 4 people found the following review helpful. The Most Sought After Price Guide In The Hobby By Carl Womack. Folks, let's make this nice and simple, Beckett Price Guides are the most accepted price guides in the world PERIOD. No other racing price guide even comes close to the popularity of Beckett. Collectors the WORLD over look enthusiastically for each new Beckett release. As for this book, I dare say you will not find another publication that covers its listings in greater detail. This book lists thousands of cards and hundreds of die-cast car values. With the card listings, many sets are given a value along with vital information about each one. Then many sets are broken down into listings for each individual card and a value placed on each card. There's listings for vintage sets as well as some of the more popular ones. Photos are included as well as special notations about things like error cards, rare subsets and the like. This guide will be a big help to anyone interested in the racing hobby. Beckett guides are the ONLY ones I currently use.
