Marty Bergen : Bergen's Best Bridge Quizzes, Volume 1 before purchasing it in order to gage whether or not it would be worth my time, and all praised Bergen's Best Bridge Quizzes, Volume 1:

8 of 8 people found the following review helpful. Save your moneyBy Mike GorskyIts ok, but its very short, you will get through it in a couple of hours. It seems like Marty Bergens short paper backs are just churned out without much

substance. When you peel away the table of contents and advertising the book is about 48 pages long. I do not think I got my monies worth. 7 of 7 people found the following review helpful. Pricey for little By DDBeginner/Intermediate level book. What little there is is ok. The content is rather skimpy for the price. Most bridge books that cost twice as much give you 3-4 times the material. Better to buy a book like Card Play Made Easy.

An interactive opportunity to test your skills and add to your knowledge of the game. The first in Marty's newest series.

"Very few experts also have the ability to teach and write. Marty can his books are always on the mark." -- Nancy Deal
Once you devour his quizzes and enlightening explanations, you'll feel that you're ready to conquer the world. -- Fred Gitelman
