York P. Herpers : Biathlon - The Rapid Board Game before purchasing it in order to gauge whether or not it would be worth my time, and all praised Biathlon - The Rapid Board Game:

Biathlon is the exciting cross-country skiing race with the rifle through the forest, which is interrupted twice in the arena by each "lying"- and "standing"- shooting. The dice decides the number of missed shots and the subsequent penalties. On the track, the choice of the shortest path helps sometimes for the decisive advantage over the narrow passages, where no one is allowed to overtake. However, with bad luck at the shooting area any leading player can be obtained again. Prepare yourself for a dramatic race. Includes two game boards in A2 size, game pieces and dice cards for cutting out. The use of commercially available dice and game pieces is possible. 28 pages in color.
