Michael Betzold : Bingo!: The Secret to Scrabble Success before purchasing it in order to gage whether or not it would be worth my time, and all praised Bingo!: The Secret to Scrabble Success:

At only 64 pages it has to skim through most of the material and only gives a few quizzes to practice what you learned. There are much better books on scrabble out there that go into much more detail and don't cost much more. If you are really interested in learning the ends and outs of Scrabble and want to improve your game don't waste your money on

this book. Instead I would buy Everything Scrabble by Joe Edley. It goes into much more detail and has many more practice quizzes to test your learning.0 of 0 people found the following review helpful. Good basic principlesBy CustomerI had not used the "exchange" function as much as this book recommends, but am doing so now with success.0 of 1 people found the following review helpful. bingoooooooooBy DavidThis is a great short book that will help your scrabble game if you are a beginner or parlor player. If you are a club player or tourney player it may still be worthwhile but prolly not.
