BuddAlthough this book is a bit long in the tooth, there're some GREAT card tricks to be found here!2 of 3 people found the following review helpful. Ok BookBy A CustomerUmmm, I didn't really like this book too much. It's card tricks were just, well, to put it straight to you, weird. I'm not really sure how a card trick qualifies as "weird," but the ones in this book do...like throwing Threes in the air so that as they spin while falling, they look like aces (part of a trick). Some of the beginner tricks are WAY to easy to figure out, and some of the advanced tricks just are too complicated with not enough effect. You'd be better off with Hugard's and Braue's stuff. This book just doesn't cut it for me...and it also doesn't have many illustrations either (barely any). So, if you like "weird" card tricks, then go for this. But I wouldn't strongly recommend it...however, it is I guess a good reference book for any magician's library.2 of 3 people found the following review helpful. Good BookBy Nomar243@aol.comThis Book Has Good Tricks for Beginer to advanced Card magictions. However Some of the tricks in this book are very esay to figer out. My 5 year old cousin could figer out some of the tricks.Taht is why I gave it 4 stars.
