Sony, FromSoftware : Bloodborne Official Artworks before purchasing it in order to gauge whether or not it would be worth my time, and all praised Bloodborne Official Artworks:

It would've been nice to have more like, design notes and written info on the game's material and the illustrations. It's mostly just captions and quotes from the game itself. I would've liked a more in-depth look into the inner workings of the game. 0 of 0 people found the following review helpful. Ok product By Daniel J Boswell The binding is cheap and a lot of the art was taken from the Future Press guide. Still a cool book, but I was expecting much better quality. I wish they would've charged a bit more and put more into it. 0 of 0

In the terrifying video game Bloodborne, deranged mobs and nightmarish creatures lurk around every corner of a horror-filled gothic city. Bloodborne: Official Artworks collects the hair-raising artwork behind this modern action role-playing classic. Included are character concepts, creature designs, location illustrations, weapons, items, and more!
