Future Press : Bloodborne The Old Hunters Collector's Edition Guide before purchasing it in order to gage whether or not it would be worth my time, and all praised Bloodborne The Old Hunters Collector's Edition Guide:

44 of 47 people found the following review helpful. A great guide to an awesome gameBy HollowittzIf you have the guide book for the main game of Bloodborne than this book will be pretty much the same layout except be about the old Hunter DLC. This book covers how to get to the new DLC, the changes the various updates have made to the game up to version 1.07, and everything you will need to survive the Nightmare...again. The chapters are:1.Training Manual- This basically covers how to access the new DLC step by step. It also covers all the game updates and various things that have changed such as certain weapons using less stamina, increased storage of certain items, and so on. It also has the attack speed and stamina use of all the weapons in an easy to read format so that you can compare them all on the spot.2. Hunting Grounds- This chapter goes over all the new areas and tells you the locations of enemies, where to find items, enemy stats, the best paths to take, secret areas, and basically everything about the areas.3. The Bestiary- This covers all the new enemies, bosses, and npc's and tells you there stats, weaknesses, strategies, how many blood echoes they drop, items they might drop, where they are found, and with the bosses it also tells you if certain attacks are interruptible.4. Arsenal and Attire- This covers all the new weapons and items. It tells you there damages in regular and transformed mode, gives you strategies, best runes to use with them, where to find them, and skill scaling. It also goes over the new arcane items, gestures, and attire.5. Hunters Appendices- This goes over all the NPC's and quests

you can do with each and how to get all the items they can give. It has the trophy guide, and goes over the story and lore of the game which really helps because honestly I have no idea what's going on in the game and I've even platinumed it. Finally it has a little bit of artwork of the game. So basically if you have the First guide for this game it's the same thing pretty much but covering the DLC and for those of you who don't have that guide I would suggest both that one Bloodborne Collector's Edition Strategy Guide and this one. They will not only help you platinum the game and die A LOT less, but this guide will go over the story and help explain a lot. The cover of the book looks awesome and the back is just black with a little sword. I can't recommend this book enough and it's an excellent companion to an excellent game. 14 of 14 people found the following review helpful. Beautiful Guide By Josie The beautiful cover art was the main reason I ordered it and I love it. Of course having a guide for games like Bloodborne and Dark Souls are always handy to have too. I'm just sad it was so beaten up on delivery (pages warped and cover dented) and have to return it and wait for a replacement (no fault of future press, really needs to step up their packaging on their books because this has happened to me before.) UPDATE: My replacement came in and it was in much better condition though the pages are still slightly warped it's not nearly as noticeable as the first one I had in so I will keep it. Here's a few pictures of the art inside for those who were interested in that since that was one of my main reasons for getting it. 8 of 9 people found the following review helpful. Perfect for Bloodborne fans By Victarion I have the original Bloodborne guide and I enjoyed it a lot. I liked being able to reference it in New Game+ for boss strategies and learning their move sets and weakness. This is a perfect companion guide to anyone who bought the original guide, or anyone who wants a comprehensive guide to the new hunter's expansion. Another great piece is the lore index in the later portion of the book. Overall this book is awesome for any fans of Bloodborne. Content: This book goes perfectly with the original Bloodborne guide. (1) Gives an overview the important changes that have been made to the game since Bloodborne was released (there have been a decent amount). Game balancing and weapon changes, etc. (2) Guide for the new expansion areas of the game. (3) A comprehensive bestiary of the new enemies and bosses, that provides defense ratings and strategies. (4) Covers all the new weapons and attire in the new DLC. (5) The last section covers random things like the lore of the game, NPC information, concept artwork, information about chalice dungeons. (The lore guide being a major feature here). Book: The book is made of firm hardback in the same style as the original Bloodborne collector's edition guide. The pages are made of a sturdy build. They feel nice and won't wear out easily. The book isn't too thick so it can be easily held in your hands.

COMPLETE YOUR BLOODBORNE EXPERIENCE With the release of The Old Hunters, Bloodborne becomes complete. And since the expansion is worthy of its own guide, here we go again: our Bloodborne Collector's Edition Guide is about to get the perfect companion. With the same understated look, unparalleled detail and luxurious extra content, these two books are designed -- inside and out -- to sit side-by-side. The original Bloodborne Collector's Edition Guide is one of the highest rated and best-received game books ever made, and we're giving The Old Hunters the same treatment. Whether you want to fully explore the new areas, learn everything there is to know about each new weapon and character, understand the intricate Lore or admire the work of FromSoftware's concept artists, you'll have a single, invaluable resource to delve into. **A Whole New Game** An entire chapter dedicated to highlighting the ways Bloodborne has changed since its release and analyzing how The Old Hunters impacts progression through the full game. **Hunting the Nightmare** Using our unique hybrid area guide format, exclusive, beautifully illustrated maps take you through the new areas the way you want -- either follow along a route or focus on a single location -- you determine the pace of action. **Twice the Arsenal** The Old Hunters almost doubles your available tools, so the possibilities in combat have increased exponentially. Find out not only how every new weapon, spell and Caryl Rune works and is used most efficiently, but how they affect Bloodborne's existing arsenal as well. **The Most Lethal Enemies** New nightmare creatures are introduced in The Old Hunters, and -- here's a promise -- they're the toughest and most lethal you'll have faced in Bloodborne. We've dedicated countless hours to turn killing each of them into a science you can rely upon, no matter what play style or equipment you prefer. **Interconnected Lore** Detailing NPC quests and character interactions is no longer just an invaluable extra -- it's our aim to provide the most complete look at Bloodborne's story and character connections available anywhere! Every important line of text or dialog that links one place or character to another is laid out in an intuitive format for clarity and reference. **Extended Art** We've made it our highest priority to showcase FromSoftware's glorious original and newly created artwork on lavishly designed pages. Each piece is displayed sharp and in full size for your viewing pleasure.
