Five StarsBy Robert SmithGreat Resource.6 of 6 people found the following review helpful. Board Game Heaven!By W. DavidsonI love board games and over the years have amassed a meagre, yet wonderful collection of them from second hand stores, thrifts and the like (in addition to what I had from my own childhood of course). Thus I was very excited to find this book, it is a great resource for a game collector. It is quite light on text (and the only reason I can't give it a 5 star rating), but the strength of such a publication lies in the pictures, which are marvellous.I doubt I will ever own many of the items here, but it doesn't matter, if you are interested in the universe of board games you will love it, if for no other reason than to enjoy looking

at the vast array of games that exist.

Color photographs of well-remembered popular board games are presented here from the 1940s through the 1980s with text, memorabilia and period advertising for them. Chapters present the game of Monopoly and its interesting history, board games with Western (The Wild, Wild West Game) and Military (Combat) themes, games of strategy (Easy Money) and sports (Baseball Game), and many more. Games for adults and children galore, and you will remember many of them.

About the AuthorDesi Scarpone is the production supervisor for the television series "Murder She Wrote" and a board game collector who fondly remembers hours spent challenged by these games in his youth. His home is in Los Angeles.
