My boss had a stroke and his speech therapist suggested this book to him to keep his mind fresh and remind him how to sound out words when you don't know them ahead of time. He likes to do them and seems to be getting better since starting this. I know that he seems proud when he gets the more difficult words. 4 of 4 people found the following review helpful. Love these puzzles!!! By Bubbles This is the second Boggle book that I have bought. I absolutely love them because I enjoy the challenge of making as many words as I can. The book starts with a simple 4x4 block of letters and has about 36 lines that you can use to make words. The challenge to me is to try to make double that amount. After a certain amount of the 4x4 grids, they increase to 5x5, 6x6 and then there are a couple of 18x18 grids

in the end. Also, on each page there are special "Brainbusters" for you to find. They give the clues and then you have to find the words. Some are easy, some require a bit more thinking. It's great brain exercise. This is a great puzzle book to have during a lunch break, waiting at the doctors/dentist office, recuperating from an illness/surgery, during a trip or waiting on transportation for the trip or just relaxing at home or even in the park. If like to have fun with letters and words then you will enjoy Boggle Brainbusters.0 of 0 people found the following review helpful. Great book! My kids love boggle and this is ...By IsaacGreat book! My kids love boggle and this is a perfect replica in paper. They keep coming back for more!!!

Boggle Brainbusters! 2 plays like the fast-paced word game itself. Try to find as many words of three or more letters as you can and form words by joining letters up, down, side to side, and even diagonally. The puzzles, which are suitable for ages eight to adult, will have the whole family playing and puzzling for hours.
