There were no instructions included in the box. When I opened the box, there were only letter tiles and a list of pronouns found in the Book of Mormon in alphabetical order, plus a stack of individual loose leaf paper for record keeping. We used our imagination to try to come up with a process, but even using the names in the Book of Mormon is a stretch because there are certain letters that just aren't used, yet there are plenty of them in the tiles--like "w" and "v". Just use your scrabble tiles and open your scriptures, then make up your own game. I'm going to see if we can return ours. We didn't purchase it on , but from a different store that I'm not

sure will take it back since it's already open and has been played with.

Stretch and expand your scriptural vocabulary in new ways with the latest edition of our popular anagrammatic boardless game: Speed Scrambler. This game is a perfect activity for family home evenings and other family get-togethers.
