WotrThis is a decent art book, my only gripe is that the cover art is in my opinion the best piece of art in the book. I only wish there were more linework drawings of this type within. However it is still a decent art book that I refer to on occasion. It has a mix of mechs, character art and other images related to the in game art.2 of 2 people found the following review helpful. the quality is good. illustration artwork book, instead of technical drawings, but turned out i like them, and started drawing from them. (helps my 3d object understanding). A good point, that even character designs are present. Don't expect much, it's not some Marta Nael, Lux or smt...but it's still good. 2 of 2 people found the following review helpful. Super cool! By City Sasquatch Beauty of a book filled with stunning images of all types of mechas! Artists who want to draw these things and just plain robo fans will really dig this thing! Super cool!

A staple of the Japanese arcade game scene, Border Break features heavy-duty mechs fighting for victory in all-out, robotic-battle action! Now, the outstanding mecha designs of this unique video game series are collected in one detailed art book. Included are technical drawings, rough concepts, character art, creator commentary, mech profiles, and more! No true mecha fan would dare miss Border Break Artworks!
