Doug Walsh, BradyGames : Borderlands 2 Game of the Year Edition Strategy Guide before purchasing it in order to gage whether or not it would be worth my time, and all praised Borderlands 2 Game of the Year Edition Strategy Guide:

0 of 0 people found the following review helpful. Not the best game guide in the world, but pretty closeBy Kate LenthallFor such a great guide, I was surprised to find it missing a couple of things. First off, it doesn't have an index, which all informational books should have regardless of size. At least there's not a huge amount of cross-information that can be found in multiple areas of the guide, so it's fairly easy to find things via assumption and the table of contents, but still. Secondly, I was really expecting it to have a map-poster. No, really, last time I checked, every guide for every game ever had a poster with it, and I'd absolutely put a map of Pandora up on my wall. :(Oh well. Also I got blasted in the face with ink smell when I first opened it, but that's to be expected, it's a gorgeous guide.It does have some places where the layout/info flow could be a little more intuitive, but clearly this was intuitive to someone. I

spend a lot of time flipping back and forth to find the info on side quests for an area, because the info isn't always in close proximity to the area map where the quest takes place. Overall, it's a really fantastic guide that every fan of the game should have. I especially appreciate the pictures of all the heads for all the classes, and the in-depth gun info that had several things I wasn't aware of. Get this guide! 1 of 1 people found the following review helpful. Great guide though. By BlueSteel With the Borderlands games I always wait until they release these GotY Edition guides. There's no sense in buying the regular one on day one and then having to buy a second one less than a year later. Great guide though. It's got all of the most recent expansions in it. The only thing it doesn't contain are the different Holiday Massacre packs. Those you'll have to look up online. 3 of 4 people found the following review helpful. Promised a lot, gives a lot, but not for everyone...read on. By John A. Zapetis I was super excited to see the game of the year edition come out in print. I have the digital version of the first guide (without the dlc content) which is too hard to sift through online. You can't display a whole page on a widescreen monitor, and you cannot scale the text to make it bigger/smaller! (That's my gripe). Anyway, they did a super job adding all the dlc that was available at the time of print date, so it's missing the headhunter missions. What's great: pages are vivid, lots of content galore, missions divided into sections, lists legendary and seraph items! What's not so great: pages are kinda thin and could tear very easily. cover came in the mail dented. The maps are vital to explore all the goodies but this version puts the key to all the items at the beginning of all maps and doesn't put it on each page the map is on like the first version?? WTF? I paid for page flipping to see what the heck that little symbol is on the map. Grr! Some legendary item descriptions are described as "classified" and stats aren't shown. Hold up just a sec, that's what I bought the book for, to see how bad/good my orange weapon is and if there is a better version. Nope...that's classified. Overall a great and handy companion for first time players to go along with the Game of the Year edition of the game. But master players should avoid this version like the plague. If you need it that bad, buy it used.

A Massive Book That Covers Everything in the Borderlands 2 Game Of The Year Edition! This huge, hardcover book can hardly contain all of the information included inside it! Stuffed full of walkthroughs, strategies, and stats for the complete game and all of the extra content in Game of the Year Edition, it has everything you need to dominate the world of Pandora! Full Class Coverage! Includes a breakdown of all the classes including the DLC characters Gaige the Mechromancer and Krieg the Psychoskill trees, and potential builds for solo and co-op play. Collectible Hardcover! Featuring exclusive art from Gearbox's Scott Kester and packed with developer tips and interviews; this collectible guide is a must for any true Vault Hunter. Walk-throughs and Maps for All of Pandora! Complete coverage of Borderlands 2 Game of the Year Edition: the main game, Captain Scarlett and Her Pirates' Booty, Mr. Torgue's Campaign of Carnage, Sir Hammerlock's Big Game Hunt, Tiny Tina's Assault on Dragon Keep, and the Creature Slaughter Dome. The guide is filled with easy to reference world maps with chest and quest point locations, quest indexes, all Cult of the Vault Hunter symbol locations, and more! Plus extensive weapon coverage, updated Bestiary and much more!
