Susan Caplan McCarthy : Brain-Twisting Visual Word Puzzles for Kids before purchasing it in order to gauge whether or not it would be worth my time, and all praised Brain-Twisting Visual Word Puzzles for Kids:

Brain Twisting Visual Word Puzzles for Kids compiles over 150 brainteasers for kids to solve. Visual word puzzles have a secret meaning behind the actual letters or words that you can see. For example, iiiiii can be solved as eyes because iiiiii is a string of Is. Some of the puzzles are difficult to solve, but once they are unraveled, they seem

obvious. The visual word puzzles translate into common English phrases and sayings. Both adults and kids can share these puzzles with others. Sometimes, part of the fun is decrypting a puzzle and then seeing if others can figure it out as well. At the end of the book are the answers to the puzzles. You'll also find suggestions for how to create more visual word puzzles.

About the Author Since 1997, Susan Caplan McCarthy has taught nature and art classes for the Massachusetts-based conservation organization Mass Audubon. She works with children ages 3-to-14, teaching them about plants and animals with the goal of getting kids and adults to develop a sense of place and an appreciation of the natural world. To further this goal, she's written a series of outdoor activity books for adults to use with children, including *Earth Art*, *Green at Heart*, and *The Green Explorer*. Through her website, FriendswithNature.com, she sells nature lesson plans geared to adults who want to teach children ages 3-to-11 about the nature of North America, as well as selling handcrafted educational toys.
