**Bill Zender : Pai Gow without tears** before purchasing it in order to gage whether or not it would be worth my time, and all praised Pai Gow without tears:

Written by a pai gow expert with a background as a Gaming Control Agent, instructor and manager, this book is for players and dealers of pai gow with tiles. Zender discusses playing strategies, procedures, game protection, rules, and advice. Illustrated with pictures of the domino-like tiles and Asian names for them, this book also contains a section on how players cheat and countermeasures to use. 80 pgs, paperback, 1989
