With games that have cards such as this, I always put them in plastic sleeves to protect them. Because most of the games that I have tend to have many cards, I don't always have a chance to look at all of them. However, these cards are captivating because the artwork is very well-done, as most people familiar with Paizo have come to appreciate and expect, and the individual card details are enjoyable. I'll say that these cards could be used by fantasists (authors, other gamers) to "add spice" to their imaginations and imagery, I'm going to assume that potential buyers reading this review are actually considering it for use with Pathfinder Adventure Card Game ("PACG"). There are no additional Adventure, Locations, Monsters, Henchmen, Villains, Loot,or Barrier cards. This Deck includes Weapons, Spells, Blessings, and Armor cards. In those categories, most will have several "B" (beginner cards, which may be used from game start), and then there will be a few that are intended as your character continues adventuring (for example: cards labeled "1" through "6"). A note of explanation that might be helpful is that these cards can be shuffled in and used, at appropriate level (see game rules),

immediately. This isn't like having an expansion you have to "wait on" until some future point: you can use these cards as soon as you get them. That being said, to enjoy PACG, follow game rules and use the cards at appropriate level. I've attached some pictures pointing at what I mean by "level," and they are "glossy" from the flash reflecting on the card sleeves. (If you're interested in my opinion on some card sleeves, look for some of my reviews on them.) I almost forgot to mention that this Deck comes with cards for a few "new"/"other" Sorcerer Characters (and other "builds" for Seoni). Why only Four Stars? Because I haven't used each particular card to see how much they affect the game, but if there was a "Ten Star Rating System" instead of "Five," this would get Nine Stars.0 of 0 people found the following review helpful.
