It is double sided, the first side (the image you are seeing) is somewhat like a clearing in the forest, leading to a giant's lair or den or anything you want it to be, could be fall, spring or summer (no snow thou). There is no actual entrance but hints of where there could be. The clearing area shows wooden fence/gate in one area, a dungeon like cavern in another area, and few large animal pelts/furs on ground in another part. Some large rocks formation and patch of forest could be entrance. Up to you to decide where you want the entrance to be, so the players can guess, or how the story will fold out. The other side is the giant's lair, (with frost giant theme snow like background, tundra, winter feel, but it could be any type of giants for your game play). If you theme, session, campaign has giants and you needing a small keep (basically the entire back side of the map is the giant's lair, a large keep for a giant but kind of small for a castle) to invade or scout out or whatever, this flip map is helpful for your

group to use. I like it, its practical for a giant raiding theme or large Viking humanoid, or anything else you want it to be. The theme is basically several rooms with lots of beds, a long dinner table with lots of chairs in the center, huge open fire pit, and a table where the main chieftain and two other giant sits. Great for use with dry or wet erase markers.0 of 1 people found the following review helpful. Trying to fill out my map sets. Since Wizards ...By library dadTrying to fill out my map sets. Since Wizards of the Coast Giant Lairs maps are either unavailable or far too expensive, thought I'd try this one.0 of 1 people found the following review helpful. Show your heroes they're hardly the biggest threats around with a dungeon of titanic proportions. This portable, affordable map measures 24" x 30" and features a unique giant lair on each side. Its coated surface can handle any dry erase, wet erase, or even permanent marker. Price includes VAT.
