I will tell from past experience because I have purchased so many of these that this puzzler book will be as much fun as all the others I have got from during the last few years. I find these interesting and fun and if I have a little extra time here and there, I enjoy doing the various types of puzzles inside. I also put these in my large handbag and take them with me while waiting at a Doctor's office for an appointment or whatever.0 of 0 people found the following review helpful. Five StarsBy max1Very good compilation of many crossword puzzles that are from my generation;enjoying looking back at all those years, well-done3 of 3 people found the following review helpful. Great book!By C.T.This is the second book I have purchased for my daughter. The first time I ordered one, the price was a bit much and I commented on it when rating the product. My account was refunded a fair amount and the price have been adjusted fairly online so I will continue to order.

Very Good, Publisher overstock, Possible minor shelf wear
