This book demystifies the creative collaborative process and gives the performer and director practical tools and

information to work happily and efficiently in the creation of new, original work.

From Library Journal Kerrigan (cofounder/codirector of TOUCH Mime Theater) presents a one-stop resource for those interested in the collaborative creative process used by performance groups in dance, mime, and drama. Part 1 provides games and exercises to be used in a group creative process, while Part 2 deals with the dynamics of working in a group environment. Most of what is here is available in some form someplace else: articles and books that provide ideas for games and exercises useful in improvisational theater abound, and there is an equal number of resources on small-group dynamics, communication, and conflict resolution. What makes this publication unique, however, is that Kerrigan has gathered so many ideas into a single resource, and each idea has been proven by use in an active collaborative/improvisational theater group. Included is a list of the over 70 people Kerrigan interviewed, as well as an extensive bibliography. Recommended for theater collections. Laura A.
