But the book has exceeded my expectations. His photography is so full of life, hope and, well, just fun, it is a great book to inspire a photographer. Also, if what he says is true, EVERY photo in there was not retouched digitally. Meaning he did all the shots in real life and didn't do it in photoshop, which is so rare these days. He reminds me of a the photographic version of Michel Gondry, but there is a sense of capturing the fun innocence in his work. Highly recommended to any photographer or fan of photography that likes fashion photography but is looking for something different. 1 of 1 people found the following review helpful. Wonderful, like being in a fairy tale! By Margaret A wonderful, whimsical book filled with photographs by Time Walker. I have seen his photographs many times in magazines like Vogue and Harper's Bazaar. I have always loved the pictures. To have a beautiful book of his photos is amazing. The book has a special place in our home. Looking at the photos is inspiring and many of the photos feel like you are inside a fairy tale. 1 of 1 people found the following review helpful.
