Lev Alburt, Alex Chernin : Pirc Alert!: A Complete Defense Against 1. e4 (Second Edition, Revised Updated)
before purchasing it in order to gauge whether or not it would be worth my time, and all praised Pirc Alert!: A Complete Defense Against 1. e4 (Second Edition, Revised Updated):

1 of 1 people found the following review helpful. Good Summary By D. M. Weimer I bought this book because I wanted to try to develop my skills and knowledge in the Pirc. The books I do have are largely summaries of master

lines and a quick overview of the opening. I needed something that would guide me through and provide some ideas for the middle game. This book fills both requirements. It lays out the main lines first with a general introduction to the opening. It then provides details and more theoretical ideas based on the introduction. I especially like the "memory markers" which finish each chapter and the outline of important ideas which introduce each chapter. The text does not delve too deeply into specific variations and subvariations. It is written lucidly and leaves the reader with an understanding of what type of middle game to expect with each variation. I'm a Class C player and I found the book very helpful. I suspect players of all levels might find something of value in the material. 0 of 0 people found the following review helpful. A very thorough work! By John M. Hagerty Except for a certain line involving an early ... Nc6 blocking the pawn on c7, the book is quite good. 3 of 5 people found the following review helpful. enjoyed it By sleepless I bought it because I wanted to understand the white side of the Austrian attack. The layout and text size is reader friendly and the suggested lines are easy to remember. Another interesting forcing line for white to play that is good for surprise value is the Chinese variation. 1.e4 d6 2.d4 Nf6 3.Nc3 g6 4.Be2 Bg7 5.g4 h6 6.Be3 c6 7.h3 Qa5 8.Qd2 etc I combined it with a look at the Pirc in current tournament play, and tried it in some of my own ICC games. Worth buying.

Everything you need to know to defend against Whites most popular and dangerous opening: 1. e4. 1000+ diagrams w/ photos
