Makes an awesome coffee table book for my cigar room. If you are looking for a book full of nude women smoking cigars, keep looking, it does not have a lot of that, but it does have a lot of great stories, history, information and photos. Cool, Classy book.0 of 0 people found the following review helpful.

OutstandingBy Alex SharpeWhen done correctly cigar smoking is part of a life style. No matter your background, education, or wealth a good cigar becomes the great leveler that allows people from different aspects to share a common hobby. The Playboy Book of Cigar captures that essence and looks great on either your bookshelf or table top. I've bought several as gifts. They've all loved it and some of them even ended up giving the Playboy Book of Cigars to their friends as gifts. A great addition to any collection.0 of 0 people found the following review helpful.

Five StarsBy KenHeavy coffee table style book. Well written..

For some, nothing is as pleasurable as the smell and taste of a great cigar. For them, Playboy The Book of Cigars will be the next best thing to lighting up. Whether you want to learn the finer points of cutters, cutting, or humidors, or want to understand more about how the tobacco is grown and the cigars rolled, its all here for you. Learn why Cuban cigars are so sought-after, what the cigars from the Dominican Republic and Honduras have to offer, and whether cigars from Cameroon and the Canary Islands are worth your time. With a foreword by artist and bon vivant LeRoy Neiman and an afterword by award-winning actor Joe Mantegna, there is more than a touch of the good life here. Sprinkled with photographs from around the world, enlivened by sexy Playboy beauties, and featuring illustrated images of celebrities by Risko, there has never been a cigar book offering more of the good life than Playboy The Book of Cigars.
