Great Puzzle Book!By KatieI purchased both the Pocket Posh Logic 1 and Pocket Posh Logic 2 puzzle books to take with me on vacation, and they are great!Here's what I love about them:1. They are extremely well made. They use a relatively high paper stock (unlike many other puzzle books that use cheap paper), and they even have a hard cover, making it easy to work on the puzzles regardless of where you are (you don't need a table or other hard surface).2. The puzzles are just right in terms of difficulty - they aren't so hard

as to be impossible to solve, but they can't be finished in 2 minutes either.<sup>3</sup> They not only provide the answers in the back, but also a "listing" of what info. you should have gotten from each clue - so if you are stuck, you can see where you went astray.<sup>4</sup> The cover designs are beautiful and include a stretchy cord to keep the books closed when you're not using them.<sup>5</sup> Their size - they are small enough to keep in your purse or car console, yet I was still able to read the writing without an issue. Overall, I would highly recommend the Pocket Posh Logic Puzzle books to anyone who enjoys stretching their mind!<sup>7</sup> of 7 people found the following review helpful. Just Right. By RaquinI LOVE logic puzzles, been doing them since I was a wee lass. These books disappointed me when they arrived, they're so small (maybe three inches by five inches), and I felt like the puzzles looked way too easy. Plus the decorative colors made me unable to take them seriously. How could good logic puzzles be hidden behind such nonsense? Once I got started, though, I realized that the size is perfect to throw in my bag for the train ride, loving the reduced bulk. The paper is very thick, it feels nice to write on, and doesn't rip or shred when you erase (it has some kind of slight gloss). Also, the puzzles looked easy, but they're actually a moderate challenge. The authors are kind of tricky with the clues, going deeper than most logic puzzles I've done, i.e. each clue may just be six words, but there is massive information in those words, both obvious and inferred. These are a great challenge, and a great way to pass the time. Highly recommend.<sup>3</sup> of 3 people found the following review helpful. Same puzzles as Pocket Posh Christmas Logic!
