**The Puzzle Society : Pocket Posh Sudoku and Beyond 2: 100 Puzzles** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Pocket Posh Sudoku and Beyond 2: 100 Puzzles:

0 of 0 people found the following review helpful. Lovely and Engaging By MyraS This is a wonderfully convenient and beautiful way to keep sudoku nearby for waiting times. Doctor's appointments, soccer games, passenger rides, this slips neatly into my purse pocket and yet, pulled out is a lovely packaging for a brain-engaging puzzle. The sudoku variants included are my favorite and will get you beyond standard sudoku into mind stretching extensions of the

puzzles you already love. Highly recommended. 0 of 0 people found the following review helpful. My favorite puzzle collection  
By Kwaidan This is the most varied selection of puzzles that do not require having English as your first language that I have encountered so far. Challenging enough not to be boring but not so hard as to be frustrating when unwinding after a long day at work. I was so happy a minute ago when I found out there are four more collections like this one available :)

Our second collection of Pocket Posh Sudoku and Beyond includes 100 original Sudoku puzzles with multiple, unique variations plus traditional Sudoku for familiarity. In Pocket Posh Sudoku and Beyond 2 we present a new 100-puzzle assortment of traditional Sudoku puzzles including Killer Sudoku, Futoshiki, and Kakuro, and exciting variations including Sujiko, Suko, Tatami, Stars, Noughts and Crosses, Shikaku, Hidoku, Katachi, Cell Block, and Suguru. Suko is similar to Killer Sudoku placing digits 1 through 9 in cells in such a way that the sums in overlapping quadrants add up to given numbers; in Tatami you fill the grid with the numbers 1 through 4 so that they appear twice in each row and column; with Stars you place two stars in each row, column, and outlined area; Noughts and Crosses put an ought or cross to fill the grid; Suguru each cell in an outlined block must contain the numbers equal to the number of cells and the same digit must not appear in neighboring cells. In Shikaku one has to divide the grid into blocks that are either square or rectangular. Each block must contain the same amount of cells as the number it frames. This portable package is part of a best-selling series featuring highly stylized, embellished covers and boasting 5 million copies in print. A free trial subscription to The Puzzle Society adds extra value.
