My 10 year old totally loves. If it gets him to stop and read a real book with paper pages without being told, I'm all for it.

This guide was written for players who are new to Pokemon and/or Pokemon GO!
First off, the book is pretty detailed and 144 pages long. It is a 5"x 8" book, so it's more of a pocket guide. It's in full color, with lots of images. If I had to guess, I'd guess there are about 300 images and photos in the book. It definitely is not cheesy.
The introduction has a short history of Pokemon and Niantic. The authors then walk you through all menus and screens - explaining what each does. There are tips on how to use Lucky Eggs, Lures, Razz Berries, Manage your Inventory, etc. There are strategies for evolving Pokemon and Attacking Gyms. There's a simple combat chart inside to help newer players understand "Type" strengths and weaknesses in gym battles.
The last 50 pages of the book contain a simple Pokedex. The Pokedex has images of all 151 Pokemon, and lists their types, evolutions and a Pokemon battle ranking from 1-5. This is great for newer players and kids.
I have picked up a lot of Pojo's Books and Magazines over the last 15-20 years. They are always dependable and good quality. If you are above level 20, you probably won't learn too much here to help you, but it might still be a fun collectible for you.
