Fletcher Black : Pokemon Emerald (Prima Official Game Guide) before purchasing it in order to gage whether or not it would be worth my time, and all praised Pokemon Emerald (Prima Official Game Guide):

1 of 1 people found the following review helpful. Pokemon Emerald GuideBy AleeraCovers Pokemon Emerald, which is significantly improved over the original Ruby and Sapphire games. I was also using this for a period of time for playing ORAS, and it is pretty similar but the ORAS guide maps guide suits that need better, but Emerald guide was inexpensive at my time of purchase. Basically I tracked down legit carts for Emerald (which was a time consuming task authenticating), so I got the guide after with plans for more future use. I've skimmed it and used it briefly, looks like a decent guide.0 of 0 people found the following review helpful.
