He gives good info for Pokemon Yellow, Pokemon Snap, and much more, including all the latest games! He is genuinely funny, and although this book may not seem too appealing at first, many will find themselves unable to put it down! I really recommend this book, which is probably a sequel to his earlier book, "How To Become A Pokemon Master". Get this book, and you will be enthralled!0 of 0 people found the following review helpful. This was a GREAT book!By A CustomerThis book had many great tips. I liked the extra tips on Pokemon Yellow version, the trading cards and more.

This guide covers all there is to know about Pokemon, including the latest Pokemon offshoots such as Pokemon Snap, Super Mash Bros and Pokemon Pinball. It gives a list of Pokemon websites featuring the best "walk-throughs" and tips.
