It has become incredibly popular within just the first few weeks of its release. Its appeal may be due to a few key qualities of the game: its nostalgic due to its similarities to the old Pokmon games and is innovative in the use of technology by utilizing GPS (Global Positioning Systems) to track where you are and AR (Augmented Reality) by using your camera to make it appear as if Pokmon are in front of you in the real world. For these reasons, both new and old Pokmon players can be found enjoying this game.Here is a preview of what this book will offer:
