It has a list of all the Pokemon in the game along with what attacks they learn as they level up (the most important thing for me that I needed), it has information on all of the wild Pokemon in each area, the gym leaders' Pokemon and their levels, the Elite Four Members' Pokemon and their levels, the Champions' Pokemon, team Magma's and Aqua's Leaders levels and their Pokemon and their levels and your rivals' Pokemon and their levels every time you face him/her. The only tiny problem: Good news = that it lists

what items you can get in each area; Bad news = the guide doesn't give their precise location in that specific area. For example, it'll say there's a rare candy, tm, etc. in a cave, but not EXACTLY where it is in that cave. So you'll have to search around to see which item is which. Otherwise, very good guide. I'd still HIGHLY recommend it! Came in good condition from .0 of 0 people found the following review helpful. Five StarsBy MICHAELpokemon for the win0 of 0 people found the following review helpful.
