Elizabeth Hollinger, James Ratkos : Pokemon Yellow (Prima's Official Strategy Guide) before purchasing it in order to gage whether or not it would be worth my time, and all praised Pokemon Yellow (Prima's Official Strategy Guide):

Just what the doctor ordered By Kenny Tipman I bought this book so I would not miss any items of value, so I could catch them all, and so I could see what moves each Pokmon would learn because I would rather have a Pokmon learn all of its moves before it evolved since they typically learn those moved at earlier levels. I am not done beating the game at this point, but so far the book has not disappointed. I will say if there was one thing that I could change about the book it would be to include a list of all the moves, their type, what they do, how much power and accuracy, and how many pp they have. Like I said, though, no disappointments so far. 0 of 0 people found the following review helpful. Thank you for the book! By Christina Butler The book is in great condition! Thank you so much for the book! 0 of 0 people found the following review helpful. The condition was great

for how old it isBy CustomerIt was everything I was expecting. The condition was great for how old it is. My son is one happy person right now.
